

Le Marche

Sant'Angelo in Pontano

Ref. 6263: Villa Quintessa is a classic stone villa for sale with annex guest-house, large garden, swimming pool and agricultural land in Le Marche.

Asking Price: € 1.680.000

Description

Villa Quintessa is a classic stone villa for sale with annex guest-house, large garden, swimming pool and agricultural land in Le Marche.

Just a few minutes walk from the historic center of Sant'Angelo in Pontano in the province of Macerata, nestled in one of the most beautiful areas of the Marche Region between the sea and the mountains, a splendid property consisting of a large villa with annex, lush garden with swimming pool and appurtenant agricultural land of over 36,000 square meters.

Villa Quintessa can be reached by following a municipal road that runs along a panoramic ridge with an extraordinary view of the pristine surrounding countryside up to the magnificent scenery of the Sibillini Mountains, villages and towns perched on the hills and the sea up to the promontory of Monte Conero. The quintessence of the Marche Region.

From the gate you enter the completely fenced garden, designed and built by one of the most famous regional landscape gardening companies. A true Shangri-La where trees, shrubs, flowers, paths, corners for rest and meditation, gazebos, solariums blend perfectly, nothing is left to chance in a harmony between greenery and buildings made with the ancient golden local stone.

An oasis of peace and relaxation in contact with nature and just outside the agricultural fields and woods and the free nature particularly beautiful in this very green and unaltered area of the Marche.

On entering the driveway lined with classic Italian cypresses, one can park one's vehicle in the carport. A green area filters the entrance to the pool terrace in front of the main aspect of the villa. The swimming pool (7 x 14 m.) with Roman steps, with its large solarium and shower area, is one of the most beautiful areas of the property. An ever-green lawn surrounds and separates the two buildings, the villa and the annex. Next to them is a beautiful fountain, the ancient working well, and then a series of paths and terraces for walks in the greenery, a pleasant corner with a gazebo, and a second entrance with a gate and paved road for access by maintenance and delivery vehicles with a small accessory for storing gardening tools.

The main residential building, the villa, is spread over three levels of about 400 gross square meters. On the ground floor you enter from the large veranda overlooking the pool area, it serves as a large summer room, from here in the living room with fireplace and dining area, a second entrance with a staircase that leads to the upper floors and connects to the large equipped kitchen and from here to the utility rooms, such as the laundry room, and a bathroom. On this same floor a guest lavatory, a technical room and a splendid porch in the coolest part of the property, acting as a third outdoor dining area, equipped with pizza oven.

The first floor is reached via a beautiful marble staircase to the sleeping area. A large hallway leads to the master bedroom with ensuite bathroom, and to the three double bedrooms that share a second bathroom on the floor. In the attic a guest area consisting of a double bedroom, single bedroom and a bathroom. Each of these rooms, host a view of the external panoramic landscape in every direction.

Next to the main building, in a discreet and independent position, the current owners of the villa have recently created, by transforming the volume of a warehouse building, a splendid annex that houses two independent guest apartments. The building is spread over one floor for about 120 square meters. Inside there are two large open spaces with living/dining room, kitchen and bathroom and on a mezzanine the sleeping area. Both apartments have independent outdoor areas and easy access to the pool area.

The two buildings were built in full compliance with anti-seismic regulations. The buildings have not lost their original character thanks to the wise use of ancient local materials that have been recovered and combined with structures resulting from a very high-profile design. All the finishing materials are of high quality as are the fixtures and systems. The buildings are equipped with all the essential systems, electricity, connection to the local water distribution network, heating with LPG gas, photovoltaic panels and thermo-fireplace, connection to the septic tank, wi-fi network, air conditioning in the guest house. (all the details on finishes, systems etc. available in the agency).

Overall, the property could be suitable for a luxury private residence or even a retreat where to carry out a high-level tourist accommodation activity. A perfect location, private but not isolated to enjoy a relaxing holiday and exploration of the area, well connected to the village of Sant'Angelo in Pontano, the city of Macerata, restaurants bars and cultural events, the most important roads connecting to the coast and the mountains and the various infrastructures of the area.

Part of the property is an agricultural land of 36,650 square meters. which can be rented to local agricultural entrepreneurs or used for one's own purposes such as planting an olive grove, a vineyard or other types of crops if desired.

About ItaliaCasa

ItaliaCasa is a fully accredited Italian real estate agency, specialized in the assistance of foreign property buyers in the most beloved parts of Italy. We combine the best of two worlds. Firmly settled in Italy, we do not forget our northern European roots. Our multilingual representatives in Italy are a guarantee for a perfect understanding of the local market conditions. We understand our international clients as we do understand the Italian way of doing business. This enables us to offer to our clients the best possible assistance during the buying process.

Why choose for ItaliaCasa?

A successful purchase in Italy does not end with the finding of the right property on a web site. Especially nowadays an interested buyer can find many intermediaries and web portals through which foreign properties are being offered for sale. Often these type of companies lack any knowledge of Italian real estate, the market situation and the legal system in Italy. It is important to choose an officially registered agency who not only knows their properties, but also can properly facilitate the entire buying process with its expertise. According to ItaliaCasa this is when the important part only begins. The completion of the purchase is the work of specialists who know where problems can arise and which matters require extra attention during the purchase. All land registry, legal and permit aspects are being mapped so the interests of the client are optimally being looked after. The end result is a purchase without worries!
