History – Santa Maria al Bagno is a tourist resort in Salento belonging to the municipality of Nardò, thus located on the Ionian coast between Gallipoli and Santa Caterina: from the latter it is separated by a small headland known as Punta dell'Aspide. It owes its name to the beautiful tower that was part of the defense system built by Charles V in the 16th century. Over time, Santa Maria al Bagno has been enriched with noble buildings, villas and a charming promenade lined with palm trees and has become one of the most beautiful seaside resorts on the Ionian Sea. The coastline is characterized by very low coasts, partly rocky and interspersed with sandy beaches, the main attraction for families with children. All along the coast there are beach clubs and beaches that are well equipped to spend the whole day by the sea.

Firmly settled in Italy, we do not forget our northern European roots. Our multilingual representatives in Italy are a guarantee a for a perfect understanding of the local market conditions. We understand our international clients as we do understand the Italian way of doing business. This enables us to offer to our clients the best possible assistance during the buying process.

Why choose for ItaliaCasa?

A successful purchase in Italy does not end with the finding of the right property on a web site. Especially nowadays an interested buyer can find many intermediaries and web portals through which foreign properties are being offered for sale. Often these type of companies lack any knowledge of Italian real estate, the market situation and the legal system in Italy. It is important to choose an officially registered agency who not only knows their properties, but also can properly facilitate the entire buying process with its expertise. According to ItaliaCasa this is when the important part only begins. The completion of the purchase is the work of specialists who know where problems can arise and which matters require extra attention during the purchase. All land registry, legal and permit aspects are being mapped so the interests of the client are optimally being looked after. The end result is a purchase without worries!
